

Brazing Product Information

As a specialty rolling mill, United Aluminum has unique rolling, annealing and slitting capabilities to tailor aluminum coil for your most demanding specifications. We deliver both small and large orders fast to help you serve your customers better. Industry leading tolerances, metallurgical assistance, quick and reliable delivery, samples for new products . . . these are some of the reasons why many customers prefer our **Custom Rolled® Aluminum Coil**.

The following Core/Cladding compositions are available from United Aluminum.
Inquire about other alloy compositions, and other clad % available, 5%, 7.5%, etc.

United Aluminum Designation	Nominal % Clad	Core Alloy	Clad Alloy	Sides Clad
1110	10	3003	4343	1
1210	10	3003	4343	2
1310	10	3003	4045	1
7110	10	3003	4104	1
8110	10	3003	4104	2
8115	15	3003	4104	2
